QUIZAM® Media Corporation Signs Pilot Agreement With Alberta's David Oughton Elementary School

Vancouver, BC – QUIZAM Media Corporation (“Quizam” or “the Company”) is pleased to report that it has signed a piloting agreement with David D. Oughton Elementary School of Calgary, Alberta.

David D. Oughton School, named for a prominent Forest Lawn, Alberta rancher, oil man and town counsellor is the latest in a crush of schools signing-on to pilot QUIZAM study software. Calgary's Oughton Elementary School emphasizes both fine arts and literacy, and creativity is a cornerstone of all teaching. It was natural then that school administrators viewed QUIZAM as a creative way to partner new technology with time-tested quizzing methods, to assess student learning.

The David D. Oughton School offers a state-of-the-art education to 302 students in grades kindergarten through seven, has computers in all classrooms, and in hallways, so that children can access information before, during and after classes.

David Quon, Principal says, “Quizam is a good supplemental resource for assessing student learning”.

Mr. Rossi, Chief Executive Officer of QUIZAM Media Corporation is pleased by the news and adds, “The more we learn about how individual North American schools interpret and teach similar curricula to similar but unique student populations, the more excited we become about QUIZAM's integral ability to create unique and relevant content for each and every user – individual or institutional.”

About Quizam Media Corporation (www.quizam.com)

Quizam Media Corporation is currently launching sales of Quizam Software, a compelling Computer-Based Assessment tool that utilizes time-tested quizzing methods to empower students to learn in an environment where their assessment is instantaneous and their learning curve is accelerated. Students using Quizam learn faster and score higher. Quizam's mission: to empower the 100 million school-aged children globally with relevant, effective and fun study aids.
