June 21, 2006 – Vancouver, BC – Quizam Media Corporation (“Quizam” or “the Company”) is pleased to announce Macaulay Elementary School has signed an agreement to utilize Quizam in the computer lab for both French and English subjects.

Macaulay offers both French Immersion and English programs to approximately 420 students. The school is well known for its community involvement and diverse culture with a First Nations Leadership program and strong emphasis on parental involvement.

The school currently uses a computer assessment tool for their Accelerated Reader's program and Quizam will help with subjects that require memory, such as math and science. Ben Koning, Computer Teacher states, “Macaulay Elementary is a dual track school offering both French Immersion and English programs”.

Russ Rossi, President of Quizam states, “French, like any language, is largely governed by rules - for example all nouns ending in ‘ment’ are masculine and all nouns in ‘tion’ are feminine. The fastest way to master a language is first to learn the rules - Quizam helps students learn and remember the rules!”

Macaulay School is located in Esquimalt, British Columbia along the southeast coast of Vancouver Island, to the west of the City of Victoria.

About Quizam Media Corporation (www.quizam.com)

Quizam Media Corporation is currently launching sales of Quizam Software, a compelling Computer-Based Assessment tool that utilizes time-tested quizzing methods to empower students to learn in an environment where their assessment is instantaneous and their learning curve is accelerated. Students that use Quizam learn faster and score higher. Quizam's mission is to empower over a billion school-aged children and university students globally with relevant, effective and fun study aids.
