July 5, 2006 – Vancouver, BC – Quizam Media Corporation (“Quizam” or “the Company”) is pleased to announce a MAC version of Quizam is now available for K -12 school aged children and Higher Education students throughout the world.

Quizam® is a compelling Computer-Based Assessment tool that uses time-tested quizzing methods to empower students to learn in an environment where their assessment is instantaneous and their learning curve is accelerated.

Ken Anderson, lead developer for Quizam commented, "Quizam for the Mac now allows us to reach a wider audience and we are excited to see how this will broaden our reach to more users. It is available for Mac OS X 10.3.9 and later which should cover machines for at least the last two and a half years. Quizam for the Mac, like the newly updated Windows version, has all the same great features as before while adding support for images and sounds"

Quizam MAC is currently available in the **Primary Version** that's designed for Grades 1 to 12 and university level. Quizzes can be downloaded from www.quizam.com edited or new quizzes can be created within minutes. The **Primary Version** is a creative tool that helps develop the 'building blocks' of effective study skills and memory. **Quizam Enterprise** and **The Professional Edition/Q-Notes Versions** will be available in both PC and MAC, 2007.

Russ Rossi, President of Quizam Media Corporation states, "Quizam® is gaining significant acceptance in schools throughout the world. The new MAC version will more than double the market potential and capture schools that put a strong emphasis on creativity; specifically schools that use graphics and multi-media software on a MAC platform."
